

THERMOLOFT 21

Description

- Non-woven high-loft material
- Composed of 100% PET fibers.
- Thermally bonded by means of bico fibers
- Color : white

General Properties

- Odor free
- Recyclable (100% PET)
- Non-irritating, anti – allergic
- No chemicals used, no formaldehyde
- Humidity and rot resistant
- Ökotex 100 standard : Class I – Annex 6

Application

ThermoLoft 21 is a firm thermo-bonded quality, offering a good bulk due to the three-dimensional structure. Thermally bonded battings are environmentally friendly and can be completely recycled.

Physical Properties

(*) measured on average values over machine width

Weight (*)	ISO 9073-1 (g/m²)	90 → 360	+/- 10%
Flammability	BS 5852 source 2	pass	
Care instructions	Quilted	    	
Dimensions roll (width)	cm	235	-0 / + 2
Dimensions roll (length)	m	90 - 35	-0
Pounding test	ISO 3385	See graph
